

61000 Series

The 61000 Series is just about as flexible as it gets. Put tables all in a row for front-of-the-room presentations or circle them for inclusive brainstorming creative sessions – the possibilities are endless. The series' modern sensibility includes wire management for a clean-lined, clutter-free look.

- Adaptable for the fast-paced modern workplace, these tables are available in fixed or mobile models, so you can rearrange your training room as needed.
- A variety of table shapes allows for many different applications during teaming and conferencing situations.
- Neatly route cable and electrical wires and cords with wire management built right into the legs.

See page 254 for the complete selection.
