

Tercero™ Conference Solutions

If Tercero had a performance review, it would read “Exceeds expectations.” With logical design and sharp sophisticated good looks, Tercero’s full line of conference and modular tables, and presentation and meeting room furnishings, performs to the highest standards. Giving you what you need, when you need it – with ease and style.

Tercero™ tables

- Tercero offers you the flexibility of two table configuration options: Full-size conference tables or smaller modular tables for configuration flexibility.
- Modular conference tables allow a quick and easy switch from a conference table format to an individual team or training set-up.
- The streamlined design of our modular table bases features one caster and one glide, so tables are easily repositioned and secured in place.

Shown in Natural Maple/Black with F3™ chairs in Inertia Stone (see page 222).

Tercero conference room furnishings

- Our mobile audio visual cabinet and video console provide secure storage solutions for audio-visual units and accessories.
- Since people come in different sizes, our adjustable-height podium accommodates multiple presenters with an easy adjustment mechanism.
- The attractive wall-mounted presentation cabinet with almost 50 square feet of dry erase writing surface also accommodates paper tablets, and provides plenty of space to make your presentation.

See pages 248-249 for the complete selection.
