

# Initiate<sup>®</sup>

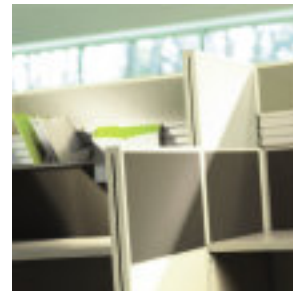

**Simple.** Simple, easy pieces create a rich array of possibilities. Initiate is simple to order and put together, yet provides extensive layout flexibility for multiple reconfigurations. Fewer parts and a simplified connection system mean set-up is quick, freeing up more of your valuable time.

- Our unique universal “X” connector simplifies installation and reconfiguration as every panel connects the same way.
- Panels feature integral finished ends, so there’s no need for additional parts when modifying your office layout.

Panels: Lucy Cornsilk fabric with Muslin finish. Worksurface: Whitestone laminate top with Muslin trim. Resolution™ seating: Crepe Copper upholstery and Titanium finish (see page 222).

Choose Initiate’s simple segmented panel option for the clean, crisp look of a frame and tile system without the extra parts or expense.

Simple panel connections minimize parts, saving time, labor and frustration.

(tackable panels)

See pages 237-242 for the complete selection.

# Initiate®

**Smart.** Initiate provides exceptional long-term value: durable construction, quality fit and finish, and versatile components that can be reconfigured to adapt to the needs of your dynamic organization.

- All-metal frames retain their integrity through years of reconfigurations.
- Metal-to-metal connectors make Initiate's structure solid, so panels always remain aligned.
- Tough polymer raceways resist scratching and damage from impact.
- Initiate features a Class A fire rating and its acoustical performance exceeds industry standards.

(tackable panels)

See pages 237-242 for the complete selection.

Whether creating workstations or a conference area, Initiate® adapts to any application with style.

Panels: Lucy Snowdrop and Daybreak Stone fabric with Muslin finish. Worksurface: Mahogany laminate top with Muslin trim. F<sup>3</sup>™ seating: Whisper Bone (COM) and Sublime Beryl upholstery and Black finish (see page 222).

# Initiate<sup>®</sup>

**Sustainable.** Initiate tackable panels utilize Nature Core™, a revolutionary fiberboard exclusive to Initiate. A plant-based, acoustical and tackable substrate, Nature Core is made from the annually renewable, sustainable material Kenaf. Nature Core is a low-emitting material and therefore helps to lower air emissions from furniture in the workplace. If “greening” your office is a priority, Initiate panels with Nature Core are a must-have.

**Panels:** Lucy Dusk and Celestial Linen fabric with Light Gray finish. **Worksurface:** Greystone laminate top with Light Gray trim. **F™ seating:** Chameã Valley upholstery and Black finish (see page 222).

- Initiate® panels with Nature Core™ contribute to LEED-CI standards for green building practices. Add a fabric with diminished environmental impact, and you have the optimal panel solution for environmentally focused workspaces.
- Initiate is the first panel system to receive Indoor Advantage Gold certification, the most stringent emissions standard. Choose Initiate to promote better air quality for your workplace.
- Initiate can be specified with recycled fabrics, such as Asana and Twigs. Asana is a 100% Eco Intelligent® Polyester fabric that can be recycled over and over again, while Twigs is produced from 100% recycled polyester.

Nature Core is durable and effective in blocking and absorbing sound – and emits few Volatile Organic Compounds (VOCs) into the air.
