

Efficiencies® Track Filing

What if we told you about an innovative filing system that increases your filing capacity while reducing the amount of floor and wall space you currently use for files? Sound too good to be true? Well, look, here's a picture of it – see for yourself!

Shown with 600 Series shelf files.

- Allows 600 Series shelf files to be used in high-density filing and storage areas, using less space.
- Personalize for your office with fixed/mobile combinations.
- Heavy-duty, flexible stainless steel tracks require no floor leveling, and stay steady.

See page 235 for the complete selection.
