Universal height pedestals, **used without spacers**, will not interfere with the grommets. A spacer is required to attach to worksurface. Use of a pedestal spacer or 28"H standard height pedestals will block wire access from the grommet to the kneespace area.

NOTES: Stack-on units can be attached regardless of pedestal configuration.

Personalize Your Storage Needs With These Possible Solutions:

Use coordinating HON components such as Pedestals shown on pages 246-248 and Lateral Files shown on pages 250-251 and 258-264.

NOTE: Ability to use all HON laterals and pedestals.

NOTE: See pages 186-188 for shared components.
