

THE CHILDREN'S MUSEUM OF FINDLAY
FINDLAY, OHIO

BUILDING ON THE IMAGINATION.

Since 2014, The Children's Museum of Findlay has been a place of inspiration, creation and exploration. With over 4,000 annual visitors, memberships doubling and a \$60,000 renovation underway, the museum director and FriendsOffice recognized an opportunity to include more permanent seating and table layouts that would support a variety of programming activities while maintaining designated spaces for both children and adults.

Inefficient folding tables were replaced with unique Build™ table shapes that represent the power of imagination and creative energy of the museum's latest exhibits. New SmartLink® chairs, designed specifically to support active learning in young students, embrace the brightly colored themes throughout the facility and encourage interaction.

As sponsors of the museum, FriendsOffice was able to maximize showroom discounts and provide cost-effective solutions that enable The Children's Museum of Findlay to continue connecting families and engaging the local community.
