Fabric Specifications

Flammability

Tech. Bulletin 117-2013
 This textile is compatible with California Technical Bulletin #133 (CAL 133) when treated and/or used with other compatible furniture components

Fabric Content

100% Polyurethane Surface

Backing

65% Polyester, 35% Rayon

Abrasion

300,000 D.R. (Wyzenbeek/cotton duck)

Lightfastness

AATCC 16.3, 200 Hours, Grade 4-5

Weight

14 oz./linear yd.

Additional Data

Crocking: AATCC, Class 5 Wet & Dry
 Tensile strength: ASTM D5034
 Hydrolysis: 14+ Weeks
 ASTM D3690-02 Sect. 6.11
 ISO 1419 Method C

Blue Sea	RS621

- *Cleaning
 The cleaning process should be started as soon as the problem occurs or is noticed. Delays in starting the cleaning process can result in permanent staining or damage to the leather alternative. Care instructions are as follows:
- Clean regularly with soap and water
 - Wipe up spills as soon as they occur
 - Lift most stains with an alcohol based cleaner like Fantastik®
 - Disinfect using a 1:5 bleach/water solution
 - All cleaning solution residue should be thoroughly rinsed off with water
 - Air dry

Ultrafabrics Performance Fabrics are ideal for all interior applications because of the environmental benefits they provide. Ultrafabrics Performance Fabrics meet the criteria established by international organizations such as GREENGUARD and Oeko-Tex. All have rigorous requirements for products meeting low emission standards which are free of harmful substances.
