THE PERFECT FIT
DESIGNED AROUND YOU. AND YOU. AND YOU.

You are one of a kind. So shouldn’t your chair be designed with that in mind? We think so. Not only does Ignition fit your height and weight to a tee, it offers sophisticated materials for pinpoint comfort just where you want it. With a great mix of back heights and styles to choose from, it works everywhere. Just like you.
MESH WELL TOGETHER

The 4-way stretch mesh uses your weight to flex and move for a softer, more personal fit. Because we all know that the best ideas happen when you really stretch yourself.

“Ignition has been a bestseller for years, so when evolving it to meet today’s needs, we didn’t want to lose the elements that have made it so successful. Instead, we added new comfort adjustments, 4-way stretch mesh options and other enhancements that made it an even better fit for the new work day.”
