STYLE AND SUBSTANCE,
PERFECTLY MESHED.

A CHAIR THAT CONFORMS TO YOU.

A great chair doesn't have to cost an arm and a leg, it just has to properly support them. Introducing Lota, a mesh back chair with simplified comfort controls and all the features you'd expect from a quality office chair and a few you never expected. Lota's unique three-way pivoting arm supports elbows and forearms in virtually any position, and the intuitive counterbalance supports your specific body type without making adjustments to any levers. Lota, the kind of comfort that makes it easy to sit for a long time, with the kind of control unexpected in a chair this reasonably priced.

A. SIMPLIFIED CONTROLS

Weight activated controls eliminate the need for confusing chair adjustments, such as levers and paddles.

B. COUNTERBALANCE

Lota uses your body weight as a counterbalance when leaning forward or reclining.

C. 3-WAY ADJUSTABLE ARMS

Arms reposition to various height, depth and pivot options with ease.

D. THE FINISHING TOUCH

Lota is available with a Black frame and base or with Polished Aluminum accents.

H2281 & H2283 FABRIC CHOICES
