A CALMING INFLUENCE
FOR HEALTHCARE
ENVIRONMENTS

Comfort For Patients. Convenience For Caregivers.

Healthcare facilities are more dynamic than ever, and vital to both the short- and long-term healing process. As a result, healthcare providers recognize the need to enhance comfort, safety and control for both patients and caregivers. Designed specifically for healthcare environments, the Soothe collection maximizes comfort along the patient's journey to recovery, enhances functionality for the caregiver, and creates the versatility required to deliver a higher level of care.

CONNECTING PATIENTS AND CAREGIVERS
From patient and infusion rooms to outpatient facilities, Soothe can be configured to meet the needs of many healthcare spaces.

ENHANCE COMFORT, SAFETY AND CONTROL.

Supporting caregivers is equally as important as comforting patients, and the Soothe patient recliner is loaded with standard features that enhance the overall treatment experience. Every detail and feature of the recliner was diligently researched and designed to maximize a patient's comfort and a caregiver's control. Caregivers benefit from the convenience of easily activated pivoting arms, infinite recline and locking casters. The functionality of Soothe allows caregivers to keep their focus where it belongs — on treating the patient.

INFINITE RECLINE

The chair back and footrest are designed to allow the patient or caregiver to select from an infinite number of configurations. Positions shown include: upright, reclined with footrest, and fully reclined.

STANDARD FEATURES

1. PIVOT ARM

The pivoting arm can be easily activated to move the arms up and out of the way during patient transfers or examinations.

2. LOCKING CASTERS

Casters lock independently to keep the patient stationary during treatment.

3. CHAIR TRANSFERS

The seat height and pivot arm enables convenient caregiver-assisted patient transfers.

OPTIONAL FEATURES

The following optional features provide added convenience, control and protection.

CENTRAL LOCK
Pedal immediately locks the recliner.

FOLEY HOOK
A foley hook holds tubes, medical bags, and other equipment vital to treatment.

IV POLE MOUNT
Customize with an IV pole mount to simplify transfers and save valuable floor space.

PUSH HANDLE
Ergonomically designed to reduce back strain and support the caregiver as they reposition the chair.

FOOT PLATFORM
Foot platform elevates patient's feet to accommodate users of all sizes.

MOISTURE BARRIER
This extra layer of protection prevents moisture from penetrating the foam to improve cleanability and extend product longevity.

REHABILITATE ANY HEALTHCARE SPACE.

Bring a higher level of functionality throughout your healthcare facility. Soothe guest chairs and benches can be configured to suit your space, style and functional need. Elevate the aesthetic with a virtually unlimited combination of seating fabrics. Make the environment safer with the rounded corner design on Soothe tables. Support patients up to 750 pounds with reinforced bariatric chairs. As patients transition to the exam room, the high-back patient chair offers a contoured seat and back to provide additional comfort and support. Every detail of Soothe delivers comfort, enhances patient safety and creates an inviting environment.

CUSTOMIZE YOUR SELECTION.

Soothe offers a wide variety of colors, textures, pattern fabrics and wood finishes to create palettes that help express the unique character of any healthcare space.

1. WIPEOUT

Soothe guest seating includes a space at the back of the seat that allows for easy clean up and maintenance.

3. HIGH-BACK PATIENT CHAIR

Responsive design back moves with the patient for added comfort.

5. WOOD ARMCAPS

Optional solid wood armcaps are available to complement the aesthetic of the environment and coordinate with the table finishes.

2. GANGING CAPABILITY

Chairs and tables can be ganged together to create configurations that fit any space.

4. ROUNDED CORNERS

Rounded corner design prevents injuries and creates a safe environment for children.

6. LEG DESIGN

The reinforced leg design distributes force evenly to provide a sturdy foundation.
