# Voi STILL GETS YOU

Voi has always provided stylish and practical workstation solutions for every application, and now it's getting even better. With the addition of standing height worksurfaces, users enjoy the option of switching from a standard desk height to a healthier way of working. New additions to the collection of leg supports and storage components are designed to support standing height worksurfaces, while seamlessly integrating with the rest of the Voi family. With the reinvigorated Voi collection, you can always achieve the perfect mix of functionality and style.

## A. COLLABORATIVE AREAS

Position a Voi standing height worksurface between adjacent workstations to create a convenient place for collaboration.

## B. PRIVATE OFFICES

Give people the option to sit at their desk or turn around and achieve a healthier posture with a workstation featuring two worksurface heights.

## C. TOUCHDOWN SPACES

This Voi configuration supports visitors, customers, and anyone in need of a short-term home base. The double-depth O-leg simplifies shared desk supports and creates a cleaner aesthetic.

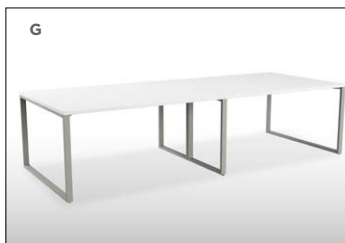

## D-G. SUPPORT OPTIONS

A combination of wardrobe towers, standing height shelving, standing height pedestals and double-depth O-legs creates a variety of options for supporting worksurfaces, while also adding storage.

## H. STANDING HEIGHT TEAMING

Wardrobe towers and standing height pedestals support shared teaming environments with personal storage.
