

HON

Monitor Arms

PUT STYLE AND FUNCTIONALITY ON DISPLAY

HON monitor arms allow you to free up workspace and effortlessly move your monitor into a variety of positions. The gas spring technology enables effortless arm adjustment in a range of extension heights. Simply tilt the monitor up to 55° degrees while swiveling 360° degrees at two points. The arms fold completely back to the post to provide maximum desktop space, and cord management helps create a less cluttered worksurface. Backed by the HON Warranty.
